

Strategic IT Growth with Protek

CLIENT INDUSTRY: eCommerce and Specialty Retail

LOCATION: West Valley, Utah

SERVICES: Aftermarket truck accessories, off-road equipment, and suspension systems

Summary

Organization partnered with Protek to lead their expansion and digital transformation. Protek orchestrated a seamless IT transition into a new facility four times the size of the original, ensuring minimal disruption to operations. The new space was meticulously wired and configured to create a safe, efficient, and future-ready IT environment. Strategic network upgrades were implemented to support the company's growing online traffic and eCommerce operations, enhancing speed, reliability, and security. Additionally, Protek designed and deployed a scalable infrastructure capable of supporting a workforce that had quadrupled in size, laying the foundation for continued growth and innovation.

Challenges

- Limited physical space and IT infrastructure.
- Need for seamless transition to a larger facility.
- Growing employee base requiring scalable network solutions.
- Expansion of online capabilities to support eCommerce growth.

Protek's Solution

Protek partnered to facilitate their expansion and digital transformation.

Key initiatives included:

- Seamless IT transition to a new facility four times the original size.
- Wiring and configuring the new space for a safe and efficient IT environment.
- Strategic network upgrades to support increased online traffic and eCommerce operations.
- Scalable infrastructure to accommodate a quadrupled workforce.

The Results

- Successful relocation to a larger facility with little to no downtime.
- Enhanced IT environment supporting operational efficiency.
- Robust eCommerce system driving online sales growth.
- Employee base grew astronomically with seamless onboarding and IT support.

Impact

Protek's strategic involvement enabled client to scale both physically and digitally. Our expertise in IT infrastructure ensured a smooth transition and laid the foundation for continued growth in the competitive eCommerce and specialty retail market.
